## Top 10 pollutants

- Carbon monoxide
- Sulphur dioxide
- Nitrogen oxides (expressed as nitrogen dioxide)
- Total particulate matter
- PM10 - Particulate Matter <= 10 Micrometers
- Ammonia (total)
- Isopropyl alcohol
- Volatile Organic Compounds (VOCs)
- Methanol
- PM2.5 - Particulate Matter <= 2.5 Micrometers

## Processing methods

## Yearly provincial contributions

Substance Name (English) / Nom de subst...

|                                       |
|---------------------------------------|
| 1,2,4-Trimethylbenzene                |
| 2,6-Di-t-butyl-4-methylphenol         |
| 2-Butoxyethanol                       |
| 2-Ethoxyethanol                       |
| 2-Methoxyethanol                      |
| Acetaldehyde                          |
| Aluminum (fume or dust only)          |
| Ammonia (total)                       |
| Anthracene                            |
| Antimony (and its compounds)          |
| Arsenic (and its compounds)           |
| Asbestos (friable form only)          |
| Benzene                               |
| Biphenyl                              |
| Bis(2-ethylhexyl) adipate             |
| Bis(2-ethylhexyl) phthalate           |
| Bisphenol A                           |
| Calcium fluoride                      |
| Carbon monoxide                       |
| Carbonyl sulphide                     |
| CFC-11                                |
| Chlorine                              |
| Chloroform                            |
| Chromium (and its compounds)          |
| Cobalt (and its compounds)            |
| Copper (and its compounds)            |
| Cresol (all isomers, and their salts) |
| Cumene                                |
| Cyanides (ionic)                      |
| Cyclohexane                           |
| Dibutyl phthalate                     |
| Dichloromethane                       |
| Diethanolamine (and its salts)        |
| Ethylbenzene                          |
| Ethylene                              |
| Ethylene glycol                       |
| Ethylene oxide                        |
| Formaldehyde                          |
| Hydrochloric acid                     |
